Dr. J. H. Kim is a professor of the Department of Chemical Engineering at Seoul National University, Korea. He received his B.S. and M.S. degrees from Seoul National University and his Ph.D. degree from the University of California, Berkeley. He worked as a research scientist at the Lawrence Livermore National Laboratory, California, and as an assistant professor at Seoul National University. He is currently a professor and has been involved in research on the design and optimization of chemical processes. He is a member of the American Chemical Society and the Korean Chemical Engineering Society.
