Foreword	1
-----------------------	---

Part I. Construction Policy

I - 1. Proposal for Improvements of the Evaluation and Public Announcing System of the Contractor's Construction Capacity	5
I - 2. The Impacts and Business Strategies of Constructor and Material Supplier under the Product Liability Law	7
I - 3. The Policy Objectives for the Improvement of Safety Management System in Construction Works	9
I - 4. A Study on the Institutionalization of Real Estate Investment Company in Korea	11
I - 5. A Time Series Analysis of Construction Orders and Policy Recommendations Based on Short-term Forecasts	13
I - 6. The Ways to Improve Current Supervision and Inspection System	17
I - 7. Reform Measures for Efficient Operation of the Construction Machinery	19
I - 8. Legal Frameworks of Construction Sector of North Korea	21
I - 9. Proposal for Training and Management System for the Construction Craftsmen	23
I -10. A Study on the Rationalization of Defects Liability in Construction Works	25
I -11. Study of Construction Bidding Collusion : the Realities, the Causes and the Remedies	27
I -12. The Remedies for Improving Subcontract Payment Systems in the Korean Construction Projects ..	29
I -13. A Study on the Transformation of Public Works Ordering System	31
I -14. Survey Report on the Demand and Supply of the Construction Technical Manpower	33
I -15. Implementation of a New Cost Estimation Method Using Bill of Quantities to the Korean Construction Industry	35
I -16. Measures to Improve the Budgeteering of Environmental Conservation Cost in Construction Projects	36
I -17. Policies for Project-Partnering	38
I -18. A Study on the Guarantee System of Public Construction Contract and the Construction-related Financial Cooperative : Current Problems and Proposals for their Solutions in Korea	41

I -19. Implementation of Grading Scheme in the Pre-Qualification Process of Construction Tendering ·	43
I -20. The Strategies of Improving Korean Overseas Construction Industry ·········	45
I -21. IMF Bailout and the Korean Construction Industry: Impacts and Countermeasures ·········	46
I -22. A Study on Unfair Trade Practices and Their Remedies in Public Construction Contract : With Reference to the Korean General Conditions of Construction Contract ·········	49
I -23. A Study on Construction Bonding and Loan System : Current Problems and Proposals for their Solution ·········	52
I -24. A Study on Calculation and Effective Management of Quality Control Cost in Construction ·	53
I -25. Directions for Improvement of the Guarantee System of Public Construction Contract ·········	55
I -26. The Policy Measures to Support the Recycling and Upright Disposal of Construction Wastes	57
I -27. Problems of and Solutions to Current Pre-Qualification Scheme ·········	59
I -28. The Problems and Directions for the Improvement of Design-Build Contract for the Public Projects in Korea ·········	62
I -29. Reformation of General Conditions in Construction Projects ·········	64
I -30. A Proposal of Solutions to the Problem of Vocational Training System for the Construction Industry ·········	65
I -31. A Survey on Institutional Framework for Construction Activities in Selected Countries ·········	68
I -32. Solutions to Problems of Policy for Promotion of Construction Technology Development	70
I -33. A Proposal for Improvements of Contractor Evaluation : With Main Reference to Foreign Cases ··	71
I -34. A Study on the Regulatory Reform and Deregulation of Subcontracting in the Construction Production ·········	73
I -35. The Current Status of and Improvement Directions for Construction-Related Institutional Frameworks ·········	75

Part II. Construction Market & Firms

II- 1. The Analysis of Financial Statement and Business Performance of the Listed Construction Corporations for 1998 ·········	79
II- 2. A Study on the Development of Apartment Investment Indicators ·········	81
II- 3. A Survey on the Small and Medium-Sized Construction Firms In Korea ·········	83
II- 4. A Study on Construction Firms' Bankruptcy ·········	86

II- 5. An Analysis of Influential Factors on Profitability of Construction Firms	88
II- 6. The Construction Guarantee System in U. S. A. and Japan	90
II- 7. A Study on Enhancing Financial Competitiveness of the Construction Industry Conforming to the Change of Financial Environment	92
II- 8. Six Successful Marketing Strategies for Housing Business	96
II- 9. International Strategic Alliance of Korean Construction Firms	98
II-10. Demand Creation and Public Project Participation of Construction Firms : A Case of Japan ·	99
II-11. Status of Foreign Engineering Construction Industry and Implementation of Contractibility ·	101
II-12. The Strategies of the Japanese Construction Firms for Entry into Foreign Markets	103
II-13. The Impacts of Localization on the Construction Industry and Business Strategies in Response to Localization	105
II-14. A Survey Report on the Image of the Construction Industry and Worker's Perception on Employment Environment	107
II-15. Construction Industry and National Economy	109
II-16. A Survey on Subcontractor Management System of Selected Japanese Contractors ·	111
II-17. A Survey on the Roles and Operation of the Japanese Construction Related Associations ···	113

Part III. Construction Management(CM) & Engineering

III-1. Analysis of Time Extensions in Construction Projects	117
III-2. Promotion of Reasonable Construction Claims in Construction Works	119
III-3. The Function and Role of Construction Management	121
III-4. Construction Management Model for Public Projects in Korea	122
III-5. Calculating Delay Damages in Construction Projects	124
III-6. Analysis of the Trends in Construction Claims in Korea	126
III-7. A Methodological Improvement of Progress Measurement and	128
III-8. Benchmarking for the Construction Management Business in the Korean Construction Industry	130
III-9. A Study on Introduction of a Truck Mixing Method in Ready-Mixed Concrete Production	132
